CV / About 01 / 18

About

I would describe myself as an inventor.

Without Borders

I do not limit myself to the space I perform, be it digital or real life, there is always something to improve or do differently in either of the worlds. Coming up with ideas

When inventing something, I always move in 2 ways: either from the task to a search of an idea or from the idea to the implementation solution.

Stand at the origins

What I love most about my work is the fact that I stand at the origins of the idea itself and product development, that I impact the formation of its future look.

I love it

My job allows me to be up to date with the new trends, technologies and tools and I love it.

Concepts Questions Attention Third-party High attention to the details. Experience in engaging and Ability to offer different Ability to question my own concepts and ideas working with third-party design concepts for the teams or individuals to same product maximise the effectiveness of problem solving.

CV / Professional beliefs 06 / 18

Professional beliefs

Product should correspond to the emotional state and internal values of the user and not the designer

Business is more important

Commercial Web or Mobile design is not an art! In my opinion this is another channel to increase the company's/project income

Think like user

We (as a creative team) need to look at the product through the eyes of the end user

CV / Self-development 07 / 18

Self-development

Events

Attending advertising festivals/fairs/exhibitions to be up-to-date with the trends, campaigns and products

Design portals

Self-learning on a daily basis by browsing through the professional design portals

Coming up with ideas

Coming up with ideas for advertising campaigns or products (with no real order or client, just to train my brain) CV / Last job 08 / 18
